

One-day Course in HIV Medicine for General Practitioners

Date: Saturday 18 October 2008

Venue: Novotel Brighton Beach, The Grand Parade, Brighton Le Sands. PH 02 9556 5111

Time: 8.30am – 5.00pm

This course is targeted at general practitioners interested in **co-managing HIV patients** and aims to provide them with an understanding of issues facing HIV positive patients that may relate to clinical care provided in the primary care setting.

This training outlines the main issues relating to HIV that practitioners should be aware of in relation to general clinical care including, identifying those at risk, initial testing and diagnosis and the management of co-morbidities.

This course will including the following;

- Epidemiology and natural history overview
- Could this be HIV? – Diagnosis in primary care
- Risk assessment
- Pre and post test discussion
- Testing
- Interpreting test results
- Basics of antiretroviral therapy
- Management of co-morbidities
